The Voice & Data Specialists

Providing local telephony and broadband services in the Market Harborough area

IP Telephony | Video Conferencing | **Fixed Line Services** | LAN Solutions | Satellite Systems

With the need for a smooth and hassle-free move into new offices, **Finch Signs** approached Lily Systems to provide a personal, local and professional telephony service that would **remove past headaches** that had been experienced with BT.

*Where first impressions.....last.*

## April 2011: Office Move and Telephony Changeover

From an initial scoping session, Finch Signs outlined three main requirements that they were looking for as part of their move into new premises in Raunds, Northamptonshire; these included obtaining local phone numbers to expand their presence into surrounding areas e.g. Market Harborough, assisting with the transfer of lines and broadband and providing the facility to route calls to mobiles when there was no-one in the office.

Throughout the installation process, Lily Systems ensured that Finch Signs were updated on any developments and worked to meet the original goals, whilst ensuring that the outcome was cost-effective. This allowed for a minimal level of disruption on the normal business operation and, moving forward, Finch Signs now have one local point of contact for any telephony queries and can focus on managing the demands of a rapidly growing business.

*'Finch Signs called Lily requesting that they assist in our set up and connection of our phone & broadband for our new premises. We are very happy that we did as we initially feared that this would take at least 4 weeks. Lily acted swiftly and professionally and we were "up & running" within 2 weeks. I have had reason to request other services from Lily including new numbers and divert facilities & all enquiries have been dealt with detailed efficiency. I would have no hesitation in recommending Lily.'*

**Darren Wesby, Director, Finch Signs Limited**

## About Lily Systems

Lily Systems, the Voice & Data Specialists bring together a team with over twenty years experience in IP Networking and Communications. With the goal of bringing the most advanced technology on the market, Lily Systems provide converged IP applications and unified communications solutions, to our clients operations across the United Kingdom.
